

Guidepost Care at OCON

July 1 – 7

Renaissance Washington, DC Downtown Hotel

OCON is partnering with Guidepost Montessori to offer all conference attendees childcare options while they are in Washington DC. Participating in the conference should not inconvenience you or your family. In fact, having your children with you to spend time together exploring Washington while at the conference can bring you the best of both worlds, adult time and family time. While your children are in our care you can relax and enjoy the conference knowing they too are having a wonderful experience.

While participating in Guidepost care your child will be supported by our trained guides in a space prepared just for children on site at the hotel. With two large spaces secured for care we will divide children into mixed age groupings. Children must be toilet independent to register. Groupings will be ages 2 – 6 and 7 – 12 with some variability based on the number of children registered for each age grouping.

For our younger students, the room will be prepared just for them. It will be organized with some beautiful Montessori materials, puzzles, games, and activities that include music, art, and opportunities to get moving! Snacks will be available, and lunch will be served as part of your child's experience. We will also include quiet spaces for stories and naptime.

For our older students there will also be Montessori materials to explore as well as numerous craft and art activities, opportunities to explore science, stories about Washington DC and its points of interest, games, puzzles and more.

Please see the attached FAQ for information about dates and hours Guidepost Care will be available, rates and registration links. For those who register there will be some basic paperwork sent to you about a month before the conference so we can get to know you and your child to welcome them into Guidepost Care with ease.
